

# The History of the APL Colloquium

## ABSTRACT

The APL Colloquium is now in its 75th year. It has a rich history of bringing together scientists and engineers from around the world to discuss the latest developments in their fields. The colloquium is a unique opportunity for researchers to share their work and to learn from each other. It is a tradition that has been maintained for over seven decades, and it continues to be an important part of the APL community.
